Gladiolus Price List

C. E. SHEELY, Proprietor

222 Godfroy Ave. Monroe, Mich.

PLEASE READ CAREFULLY

As this another year rolls around and we again prepare this catalogue for you of your favorite flower "The Gladiolus" we cannot but offer sympathy for some of our fellow growers in other sections of the country who have not had the ideal growing season that we have enjoyed. The season was hot and dry but we had plenty of bottom moisture and our bulbs have developed in very fine shape and we have the finest and largest crop we have ever harvested.

May we thank you one and all for your orders of last season and only hope that your Glads were as nice as you could wish for.

Our catalogue this year is a little later in getting to you but we have attempted to not only give you a list of the Glads but as much information as possible about them. You will notice that following each variety you will find the letters A. B. C. D. etc. which if you will use the key chart which you will find enclosed you will be able to get a good idea of just what to expect of each Glad. We cannot give a complete chart of each variety as some of the newer ones we have not grown long enough to give an accurate listing to. But we have however listed the traits which we feel are more or less permanent in that variety.

The letter first following the variety such as (K) and (Pf) etc. is abbreviation for the originator of that variety such as (K) Kundred, (Pf) Pfitzer, etc.

Everything we sell is fully guaranteed in every respect, and any error or omission will be promptly and liberally adjusted, if reported. You are at liberty to return any shipment if it does not fully meet your expectations, and purchase price, plus return charges, will be promptly refunded.

Safe delivery of all orders is guaranteed. This includes damage by freezing, so you need not hesitate to order in fall or winter. We will not forward shipments by mail unless weather is such that we feel they can go through to destination safely.

TERMS

Terms are cash with order except that, if desired, a deposit of 25% will hold order until March 1st, when it will be sent C.O.D. for any amount remaining unpaid at that time.

Charges will be prepaid on all shipments taken from Prepaid List to points in the United States. All wholesale orders F.O.B. Monroe.

DISCOUNT

On Orders Taken from Retail Lists.

Will allow cash discount of 5% on orders of \$5.00 to \$10.00; 10% on orders of \$10.00 to \$25.00, and will give extras on all orders, so that our customers will all secure additional discount in the way of extra bulbs.

SPECIAL NOTICE

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any items of less than ten cents and very little at that price.

In the event that we are out of one size in a variety, we will substitute the next size in sufficient quantity to cover price, unless otherwise instructed. Just note on your order, "Don't Substitute," if you want sizes ordered only. We never substitute on varieties unless permitted to. Our aim is to please our customers.

EARLY ORDERS

Early orders are entirely practical and sensible. They insure your receiving the varieties and sizes you want, and they also secure for you the "pick of the crop," and they help us, by relieving our storage space. Many good Glads will be in great demand and hard to find later in the season, and prices are advancing. All Bulbs will be hard to buy by Xmas on account of the shortage.

While we like to ship in the fall, we will be glad to hold your order for later shipment if desired.

Please note carefully whether variety is priced "each" or "per 10" or "100."

Five may be ordered at the ten rate. Twenty-five at the 100 rate.

All stock offered and orders accepted subject to prior sale.

No order accepted for less than \$1.00.

WE ARE MEMBERS OF THE MICH. GROWERS ASSOCIATION.

Also members of the A. G. S., M. G. S. and S. E. G. S.

PLANTING TIME AT HOBBY GLAD GARDENS

The Dry Weather Twins

Again with the past dry season our two introductions of 1935, have lived up to their names of the Dry Weather Twins. Both having made 100% cutting spikes with excellent quality.

All visitors at our fields have marveled at the size and substance of the two which defy even Mother Nature to produce and withstand unfavorable weather conditions.

Bit O'Heaven

A+, B+, C+, D, E+, F, G+, H+, I+, J+, K+, L

First of our 1935 introductions that has taken the Glad world by storm.

We could fill this page and many more with the fine reports of this new wonder but would rather not toot our own horn.

If you want reports on this Glad we would refer you to the reports of the big shows where you will find ample praise for it in the prize winning columns.

Bit O' Heaven is one of the late Prof. Crow's seedlings which we named and introduced in 1935 and which we are very proud of. Its vivid orange coloring with eight or ten open at once is something you cannot forget. Tall, straight spike (around five and a half feet high) and facing of florets always good. The slight hood of the floret adds rather than detracts from the beauty of this Glad. The soft orange yellow throat blends so perfectly with the outer coloring that it does not seem real. Have never seen a flake or streak on any of the blooms that we have had.

Stock still scarce and prices remain at

1 Large, 40c—10 Large \$3.00

Streak of Butter

A+, B+, C, D, E, F—, G+, H+, I+, J+, K+, L

Second of our 1935 introductions and other half of the twins.

Possibly one of the tallest Glads grown under normal conditions. We have never had a spike of Streak of Butter that has gone under five feet from a No. 3 Bulb or larger, always straight and with from six to eight florets open at a time.

The clean cut buff coloring blending to a light salmon at the edge with the soft golden throat makes a blend that is liked by all. The back of the petals have a salmon pink reflex which is perfect under artificial light.

For massive basket work Streak of Butter stands supreme.
